### **Inauguration of certificate course**

The Department of Botany launched a certificate course on "Nursery and Gardening" aimed at third and second-year students, drawing participation from 75 individuals across various disciplines. The inaugural session on September 6, 2018, was led by the Acting Principal, Dr. Ch. Tulasi Masthanamma, who underscored the significance of nursery development and gardening. Smt. D. Uma Nischal delineated the syllabus, while Dr. Ch. Bhaskar, the Head of the Department, emphasized the course's relevance in combating global warming and pollution. Following discussions, both faculty members and students engaged in a plantation program, highlighting the practical aspect of the course. This initiative is poised to equip students with valuable skills for nurturing home gardens and promoting sustainability in agriculture.

### Outcomes of Certificate Course

1. **Knowledge Acquisition:** Gain a solid understanding of fundamental principles in plant biology, soil science, pest management, and plant propagation techniques.
2. **Practical Skills Development:** Acquire hands-on experience in nursery management, plant propagation methods, landscaping techniques, and garden design principles through practical sessions and fieldwork.
3. **Professional Competence:** Develop the skills necessary to work in various roles within the horticulture industry, including nursery management, landscaping, garden maintenance, and plant retail.
4. **Certification:** Obtain a certificate in nursery gardening upon successful completion of the course, which may enhance credibility and employability in the field.
5. **Career Opportunities:** Access entry-level positions in nurseries, garden centers, landscaping companies, parks and recreation departments, botanical gardens, and agricultural extension services.
6. **Further Education:** Lay the foundation for further education and career advancement, such as pursuing a bachelor's degree in horticulture, landscape architecture, or related fields.
7. **Entrepreneurship:** Gain the knowledge and skills needed to start and manage a small nursery business or landscaping enterprise.

8. **Community Engagement:** Contribute to community beautification efforts, urban greening initiatives, and environmental conservation projects through the application of nursery gardening knowledge and skills.

Overall, the outcomes of a nursery gardening certificate course empower degree students with a strong foundation in horticulture and practical skills essential for success in various professional endeavors within the green industry.

### **EXHIBITION ON NURSERY AND GARDENING**

The Department of Botany hosted an Exhibition on Nursery and Gardening on 5<sup>th</sup> January 2019 with the following objectives:

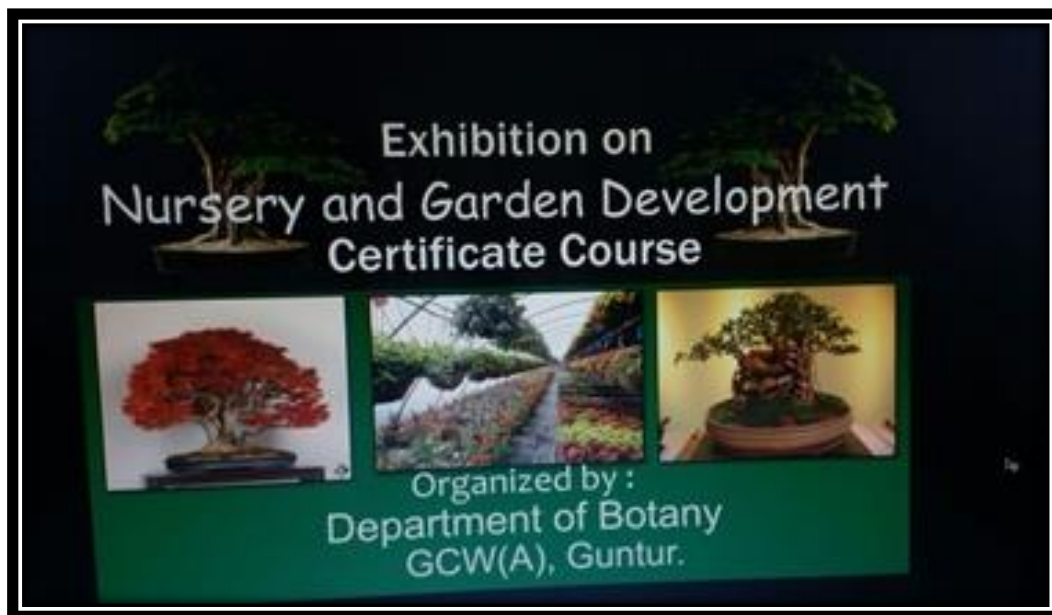

1. Educating about Nursery and Garden development.
2. Raising awareness about Nursery and Gardening practices.
3. Promoting environmental consciousness to uphold biodiversity.
4. Showcasing various aspects of Nursery and Gardening.

The event, inaugurated by Dr. Ch. Pulla Reddy and Dr. Ch. Tulasi, featured displays from nearly 50 students. Exhibits included Glass Terrariums, Floral Arrangements, Vegetable Carving, Floral Staking, and techniques like Vegetative Propagation through cuttings, grafting, and layering. Greenhouse technology, Bonsai cultivation, and eco-friendly coconut pots were also highlighted.

After the successful exhibition, a valedictory function was held, attended by faculty members and distinguished guests. Md. Karishma Khanam & Pavithra received top honors, while special recognition was given to Md. Haniya Sultana and Ch. Jyothi for their efforts in artificial flower preparation and carving. Faculty members contributed significantly to the event's success.

In summary, the exhibition aimed to educate, inspire, and promote sustainable gardening practices among students and attendees, fostering a deeper appreciation for horticulture and environmental stewardship.
