Please provide your suggestions for the improvement of the Institution *

The College administration & Faculty are putting all their efforts, using all means, for the multi dimensional development of the students and to equip the student with all needed skills to face the global challenges.

Yet every class room has to be transformed into digital classroom. Every lecturer has to be provided separate room equipped with information& communication tools with proper maintenance.

Such smart software has to be developed through which every event and activity is posted automatically in the account of person concerned and posted to authority concerned since all the activities conducted/organised by the staff, for the overall development of the student/Institution, are not coming into count.
