Introduction: of Indian culture :-

India is a famous country all over the world for its culture and tradition. It is the land of various culture and tradition. It is the country of oldest civilizations in the world. The vital components of the Indian culture are good manners, etiquette, civilized communication, rituals, beliefs, values, etc. Even after the life styles of everyone has been modernized, Indian people have not changed their traditions and values. The prosperity of togetherness among people of various cultures and traditions has made India a unique country. People here live peacefully in India by following their own culture and traditions.

The culture of India is the oldest culture of the world around 5,000 years. There is a common saying about that "Unity in Diversity" means India is a diverse country where people of many religions live together peacefully with their own separate cultures.

Objectives :-

- To get the awareness of the cultures of all the states in India.
- To know the differences in the customs our states are following.
- To know the Indian culture in its totality.

Methodology:-

- collected material from net downloads.
- collected material from magazines and newspapers.
- collected paper clippings from newspapers and net.
- kept them in order.
- concluded with our opinion.

उपसंहार :-

हम प्रथम बी. रास. सी की छात्राओं ने "भारतीय संस्कृति" पर अध्ययन कर हिन्दू-बिन्दू प्रान्तों को रहने वाले हिन्दू-बिन्दू आचार व्यवहार रहन-रहान, पूजा-पाठ, श्रद्धा-पान, पहनाव-आढाव आदि कई विषयों को समझने और समझाने का प्रयत्न किया। इस अध्ययन से हमें स्पष्ट हो गया कि भारत की विविधता में हीपी उसकी आवधार, विचार, साहित्य, कर्मिन्ता आदि सब लसाभा राक हैं। अब "unity in diversity" (हिन्दूता में राकता) को हमने उस शोध-पत्र से अनुभव किया। हमें संपूर्ण भारत की यात्रा करने की इच्छा हुई। इस शोध कार्य से हमें पूर्ण नृप्ति मिली।

INTRODUCTION

OBJECTIVES

METHODOLOGY

Introduction (प्रस्तावना):-

Taking birth as a woman in the society is said as curse for the family as well as for the woman itself. The major issue "gender discrimination" is faced from the birth and it continues till the death.

Major issues faced by woman in the society are:

- * Illiteracy
- * Lack of nutrition
- * Sexual harassment at the working places.
- * Dowry system
- * Having less power on the property when compared to the men.

Atrocities on woman :-

- * Rape attempts
 - * Acid attacks
 - * Kidnapping
 - * Ragging
- 

CRIME REPORT :-

As per the "Crime Report Bureau" by the "Central Home Ministry" (2011)

- * for every 67 minutes, a woman gets raped.
- * for every 64 minutes, a woman getting kidnapped.
- * for every 67 minutes, a woman is sexually harassed
- * for every day, 77 dowry cases are reported

Objectives (उद्देश्य) :-

* ~~By seeing~~ Being Women, we want to show the atrocities and social issues faced by the women in the present era.

① Our main motive is to aware the people in the society about the struggle of the women in the constricted society. so that the proper rights of the women could be justified.

Methodology :-

- * First of all, we went to the net shop and downloaded the matter consisting of "Social problems faced by women in India".
- * Secondly, we collected the paper clippings from the news paper.
- * Later, we did a serious survey about the problem faced by the women. And then we shortlisted the problems to present this project.

Conclusion (3421212):-

* From this survey/project, we can conclude that still the real empowerment of women did not emerge. If we eradicate the atrocities committing against the women, then only women will be empowered.

But at the end, when the women starts helping themselves to be stronger and starts make their own identity then only the real empowerment will emerge.

* We are thankful to our honourable principal "Ch. pulla Reddy" Sir and our blindi madam "B. Anuradha Devi" to give guidance to do this project successfully.

Introduction :-

The situation of women is degraded day by day because of the lower and traditional thinking. Now a days women are working and embosing themselves to the situation, this also making their life horrible. It is leading to rapes, women atrocities, stagging. Saving women is becoming very tough job. Some male dominated families even now (so many) are in a thinking that girl child is a debt or burden. There are so many states in India on a girl child's birth they distribute cheaper sweet where as on the birth of a male child they distribute costlier sweet. This is a transmission period. So many girls are there who are over coming these handles and get themselves educated. We appreciate their efforts and giving their examples to the students as inspiration.)

Objectives:-

1. To change the view of society on girl child
2. To give scope for women development
3. To make women and readers to get inspired
4. To know the value of education and get ourselves well educated

Methodology :-

1. Collected paper - clippings
2. Collected material about the eminent women
3. Downloaded the material containing the women problems and development
4. Kept all in order
5. Presented the project

Pollution (पर्यावरण प्रदूषण)

Introduction:

For normal and healthy living a conducive environment is required by all living beings, including humans, livestock, plants, micro-organisms and the wildlife. The favourable unpolluted environment has a specific composition. When this composition gets changed by addition of harmful substances, the environment is called polluted environment and the substances polluting it are called pollutants. Environmental pollution can, therefore, be defined as any undesirable change in the physical, chemical or biological characteristics of any component of the environment, which can cause harmful effects on various forms of life or property. Environmental pollution could be various types

- | | |
|--------------------|--------------------|
| 1. Air pollution | 3. soil pollution |
| 2. Water pollution | 4. noise pollution |

objectives:

1. To get the knowledge about pollution
2. To know the root causes of pollution and find the solutions to stop.
3. To get information from all sources and clarify the doubts.
4. To make the society to think of the problem.
5. showing our commitment towards the society.

methodology:

1. we all discussed about pollution and the procedure to start the project.
2. we have collected downloads.
3. we have collected paper-clippings
4. we have consolidated the opinions.
5. given the structure to the project.
6. we have also collected the some data from books.

उपसंहार

इस परियोजना के क्रम में हमें यह स्पष्ट हुआ कि पृथ्वी पर प्रदूषण की मात्रा कितनी अधिक है। यह भी मान्य किया कि प्रदूषण के बढ़ने से भविष्य में कैंसर जैसी बीमारियाँ और अन्य ग्रीव संकटों से हमें गुजरना पड़ेगा।

प्रदूषण अगर इसी तरह बढ़ जाए तो पृथ्वी के अस्तित्व ही जख्त होने की संभावना है।

* इसलिए प्रदूषण को दूर कर पर्यावरण की रक्षा करना हर व्यक्ति का प्रथम कर्तव्य है।

असली जीवन - प्रकटित जीवन

Introduction :-

Life is valuable one. But
every one especially the stallworts have two
lives i.e. Real life & Reel life. We the people
attract to words the Real life and neglect the
Reel life. But the Reel life reflects on
Real life and i.e. only the root cause of
their success. We wanted to bring
this matter in to lime light and
had ~~matter~~ in to the material and
analysed the same.

Objectives :-

- * To know the real life of popular personalities.
- * Compare our life with their.
- * Know the foundation steps of them to choose the goal.
- * Know how to mould ourselves towards achieving our goal.
- * To give the information to others keeping in mind the above said objective.

Great Personalities we observed

अमिताभ बच्चन [Amitabh Bachchan]

राजमौली [Rajmouli]

राजमीकांत [Rajamikanth]

Michel Jackson

Methodology :-

We have downloaded the related material from the net.

We have collected the paper clippings.

We have collected matter of these personalities from news paper.

We have discussed on their misdeed & victory.

We kept the material in files.
