### Name of the Activity: Extension activity to school children

<b>Objective:</b>	To create awareness about the equipment used in the laboratory among students of high school.
<b>Date :</b>	2-03-21
<b>Time :</b>	10:00AM to 4:00 PM
<b>Participants:</b>	High school students
No.of students	70
No.of faculty	3
Other participants	
<b>Description in brief:</b>	On the eve of “National Science Day” the department of Microbiology conducted an extension activity for high school children, Guntur. We invited the students from high schools and we exhibited the equipment in the laboratory. Hands on experience was given to the students for better understanding. Our III B.sc students gave PPT presentations to explain the students about the advanced equipment used in research laboratories and also explained different biological topics through models prepared by our students
<b>Outcome:</b>	Students have learnt about the equipment with enthusiasm. They interacted with the staff and clarified their doubts regarding the career and opportunities in life sciences.
<b>Evidence:</b>	

## Dept. Of Zoology

Name of the Activity	<b>Extension Activity to Govt. Junior College for Women, Guntur</b>

## Brief Report

### Introduction

According to International Diabetes Federation (IDF) 463 million adults (1-in-11) were living with diabetes across the globe based on 2019 statistics and it is expected to rise to 578 million by 2030. Coming to India, 72.9 million adults are suffering with diabetes and becoming the world diabetic capital next to China. So creating awareness about the disease is imperative. With this intention, **World Diabetes Day (WDD)** was created in 1991 by IDF and the World Health Organization in response to growing concerns about the escalating health threat posed by diabetes. World Diabetes Day became an official United Nations Day in 2006 with the passage of United Nations Resolution 61/225. It is marked every year on **14 November**, the birthday of Sir Frederick Banting, who co-discovered insulin along with Charles Best in 1922. Every year, the World Diabetes Day campaign focuses on a dedicated theme that runs for one or more years. The theme for World Diabetes Day 2020 is **The Nurse and Diabetes**.

### Purpose

Despite the high incidence of diabetes within the country, people's knowledge about the disease is minimal, especially the rural population. Most (47%) of the Indians living with diabetes are unaware of their condition. More alarming is the gap between urban and rural people, which is narrowing down year by year. This unawareness about the disease impairs the quality of life of the people suffering with diabetes, leading to poor glycemic control and multiple complications. So for better control of the disease, effective self-management of the individual is imperative, which requires not only medication but also active patient knowledge about the disease through education. Here comes the role of para-professionals like nurses and extension agents who have a strong linkage with grass root level functionaries like anganwadi teachers, workers and beneficiaries, especially vulnerable groups like women and children. So with this context, the department of Home Science is organizing a **webinar on Diabetes Education for Middle level Extension Functionaries** to create awareness about the disease to the extension professionals; they in turn help to train their clients.

## **Objectives**

- To create awareness about diabetes in general like different types of diabetes, symptoms and their risk factors.
- To acquaint with various diagnosed tests & preventive measures
- To familiarize with gestational diabetes and dietary management
- To raise awareness about the wise choices of foods to be taken and avoided/nutritional recommendations.
- To provide conducive environment for the patient by enhancing the family support system

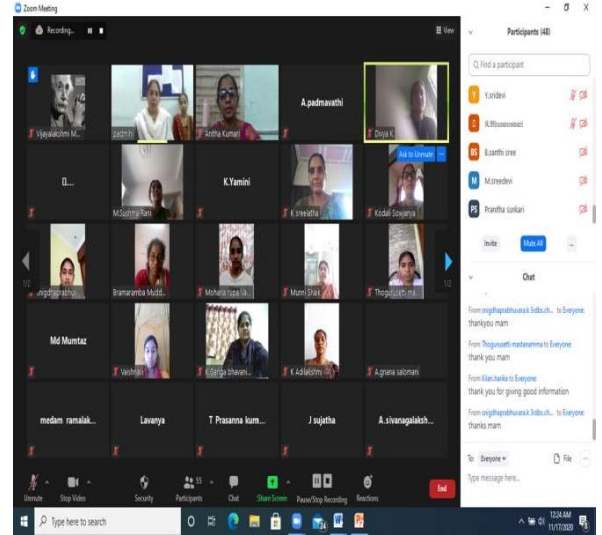

## **Process**

The Department of Homescience organized a webinar exclusively for middle level extension functionaries such as extension supervisors, child development project officers of Women and Child Development Agency of Guntur District on **17-11-2020** on the occasion of World Diabetes day. The first session is on a glimpse of diabetes where the speaker (General Physician and Diabetologist) enlightened on various aspects related to the disease such as onset of diabetes, types, causes, symptoms, diagnostic procedures and medication. Next speaker (Dietician) concentrated on gestational diabetes management as the beneficiaries of women and child development agency are women especially pregnant and lactating mothers. Last session was on Guidelines for Preliminary Training to Family Care givers where the speaker (Lalitha Nursing College) emphasized the importance of family members support needed for Successful management of the disease. A total of 85 participants were participated in the webinar.

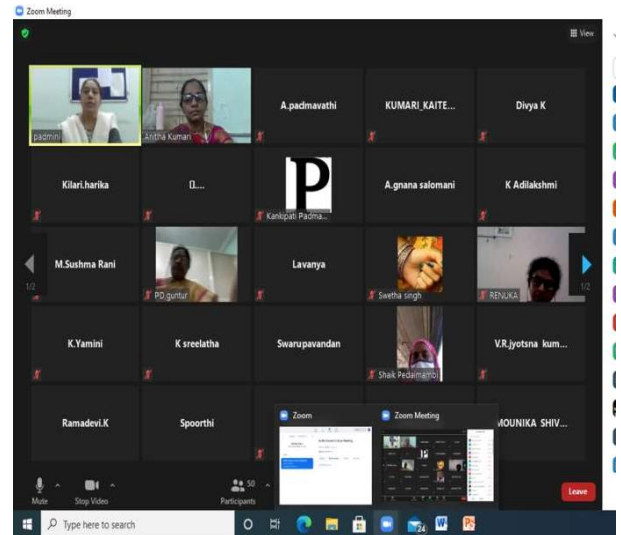

## **Outcome**

Facilitated knowledge to middle level extension functionaries helps to transfer the knowledge to their cliental.

## **National nutrition Week Celebration 2020-2021**

### **Introduction:**

In India the national nutrition week is observed every year from September 1 to 7<sup>th</sup> to raise public awareness about nutrition and healthy eating habits. This week is observed to make people understand the importance of nutritional and adaptive eating habits so that they can maintain a healthy life style.

During national nutrition week, the government takes up various initiatives to spread awareness about the right nutrition. A healthy mind resides in a healthy body and for that, we must take the adequate amount of nutrients such as proteins and vitamins in our daily diet. Every year this day will be celebrated with theme and this year i.e. 2021 theme is ‘ FEEDING SMART RIGHT FROM START’.

### **Procedure:**

The department of home science organized an extension activity on the occasion of national nutrition week at Tulasi Multi Speciality Hospital, kothapet, Guntur. In this event patients, clients and doctors are participated and the total participants were 50. In this occasion we planned to display a day's menu for pregnant mothers and for 6 months babies diet as per this year theme i.e. ‘Feeding smart right from start’ because they are base for upcoming generations. The students of home science explained clearly about importance of nutrition and their role in above two phases by showing planned menu, food pyramid and other Audio visual aid.

### **Activity-38**      **Armed force Flag Day**

**Objectives:** *To motivate the cadets towards the sacrificial life of armed forces*

**Description:** *The NCC unit of GCW Guntur celebrated Armed Forces Flag Day to commemorate the memory of those soldiers who sacrificed their life in honour and defence of the country. Five NCC cadets collected the funds/donations from the public which would be used for the welfare of veer naris, widows of veterans, disabled serving soldiers and their dependents. Faculty members, students and people around the college donated money to the “Armed Forces Flag Day Fund”. The collected funds were submitted to the Sainic Welfare office, Guntur on 7.12.2021 for the Armed Forces Flag Day 2021.*

**Outcome:** *Expressed satisfaction for the funds raised for the welfare of the army personnel families who sacrificed their lives for the country.*
